The Well-being of Future Generations Act (Wales)

“What Wales is doing today, we hope the world will do tomorrow - action more than words is the hope for our future generations”

United Nations

@futuregencymru

@sophiehowe

Goal	Description of the goal
A prosperous Wales	An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.
A resilient Wales	A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).
A healthier Wales	A society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.
A more equal Wales	A society that enables people to fulfil their potential no matter what their background or circumstances (including their socio economic background and circumstances).
A Wales of cohesive communities	Attractive, viable, safe and well-connected communities.
A Wales of vibrant culture and thriving Welsh language	A society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation.
A globally responsible Wales	A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being.

A Prosperous Wales

"An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work."

The Five Ways of Working

Long-term

The importance of balancing short-term needs with the needs to safeguard the ability to also meet long-term needs

Integration

Considering how the public body's well-being objectives may impact upon each of the well-being goals, on their objectives, or on the objectives of other public bodies

Involvement

The importance of involving people with an interest in achieving the well-being goals, and ensuring that those people reflect the diversity of the area which the body serves

Collaboration

Acting in collaboration with any other person (or different parts of the body itself) that could help the body to meet its well-being objectives

Prevention

How acting to prevent problems occurring or getting worse may help public bodies meet their objectives

The Three Horizons Model

Commissioner for Wales urges ministers to drop M4 project and invest in public transport

Words: Roger Milne

M4 Black Route plan unambitious, says the future generations commissioner for Wales Sophie Howe

Wales could transform its transport system by invest transport – and delivering all phases of the South W £1.4 billion on a new section of the M4 motorway a

The Future Generations Commissioner for Wales, Sophie Howe, has unambitious solution to transform the country's transport system.

Howe's challenge to the government's motorway project is buttress Centre for Transport and Society, University of the West of England

Meet the world's first 'minister for future generations'

The Welsh government has given Sophie Howe statutory powers to represent people who haven't yet been born
